

Premium Chalets

Collection 2020

www.larkfactory.com

Being driven by the vast experience in the hotel business and the knowledge acquired throughout years of travelling around Europe we have realised that camping as a form of recreation has never ceased to be popular.

What's more, year by year it is gaining more and more fans. Nothing surprising about that since this way of spending free time combines two fantastic qualities the freedom of relocating and the ability of keeping the comfort of the family atmosphere.

As the biggest manufacturer of mobile homes in Central and Eastern Europe we are happy to present our new chalets and lodges collection. We are also pleased to introduce our newest product – Spa & Sauna units. All of our products are available in several hardware and trim options. Lark products reach the highest quality standards and combine the excellent style with the attention to details. Our aim is to meet the expectations of every individual customer.

In order to guarantee a pleasurable and carefree time, we have engaged the best designers from all over the world, that went an extra mile to create products that meet the requirements of the most innovative technological solutions.

TRANSPORT

Lark houses are always delivered on time to the place indicated by the customer. A modern logistics center provides our customers with transport within Europe, Scandinavia, and the British Isles. Lark Logistic is high-class transport equipment and highly qualified staff specializing in the transport of mobile homes and oversized cargo.

Lark Logistic is above all about responsibility, timeliness, and diligence resulting from many years of experience in the international transport of small and large format items. As a manufacturer of high-class houses, we decided to ensure the quality of deliveries ourselves. The most important for us is our customers' satisfaction.

THE FACTORY

Lark Leisure Homes Factory is a facility with a total area exceeding 4 hectares, of which over 10,000 m² is a modern, high-class machinery park set for maximum performance and quality of production. The highly automated production line allows us to produce over 1000 Mobile Houses a year! Therefore we are becoming the most modern factory of this type in Central and Eastern Europe, and also the largest exporter of mobile houses in Europe.

OUR TEAM

The interdisciplinary team of Lark Leisure Homes Consultants combines the vision of interior design, architecture, and technical support. At any time, we are ready to help you choose the right home and guide you through the purchase process of your dream Lark Mobile Home. Nice and friendly atmosphere matters, customer satisfaction is our main priority.

The design department along with the dedicated sales team will adapt the house design to individual needs and expectations using the team experience and modern design techniques.

The beginning of an adventure with Lark is always cheerful. This year we are proud to give you plenty of new models and products to choose from.

We hope that your journey to find a perfect place to relax in will begin with this catalogue!

IBIZA

Get the taste of hot Spanish climate by spending your summer in a comfortable Ibiza mobile home, which will work out perfectly not only as an accommodation during your holidays, but also as your country home. Thanks to the unusual wall design, the interior of the house is filled with light, which creates a unique and warm ambience inside, making your stay an unforgettable experience.

POSITANO

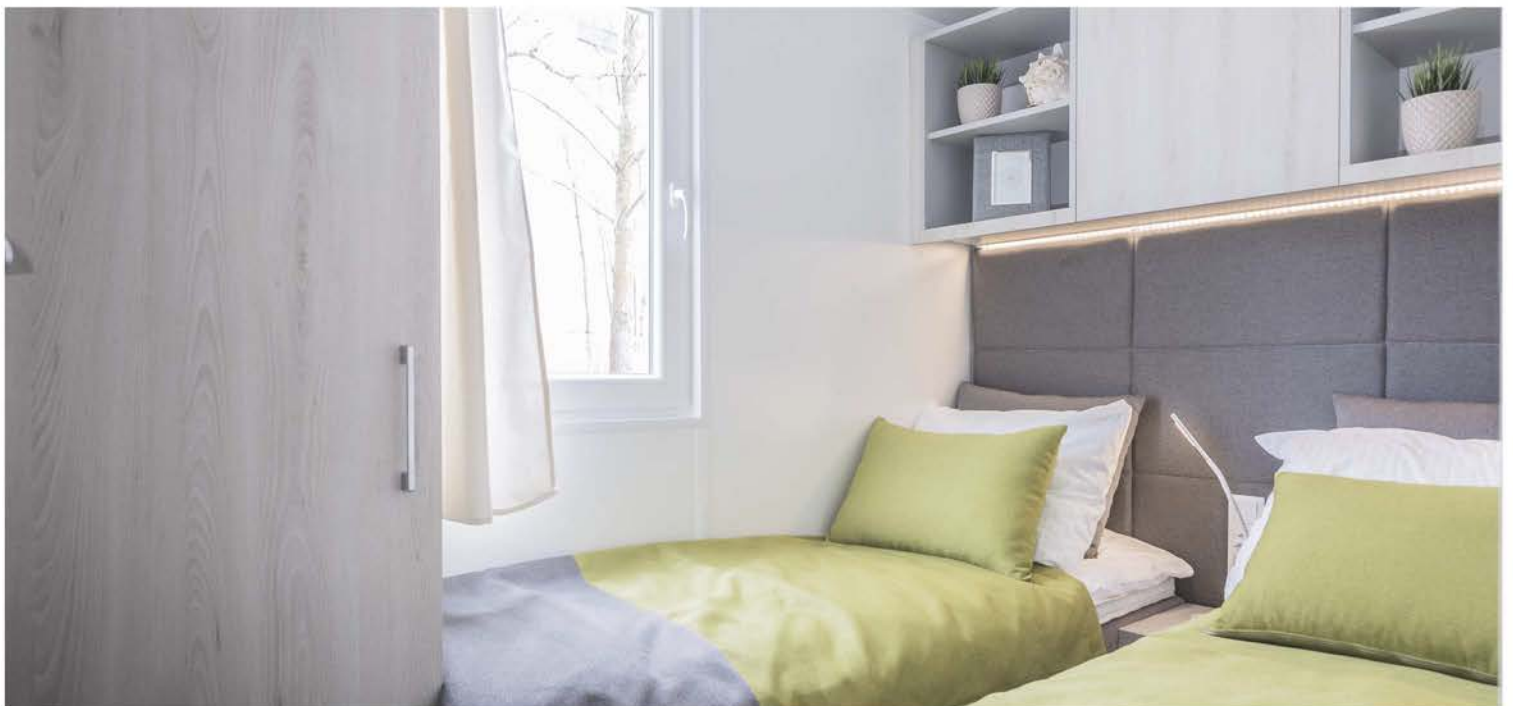

The thing that singles out Positano from other projects is its unique style. The unusual bedroom layout enhances the feeling of greater privacy and guarantees the comfortable stay to the inhabitants.

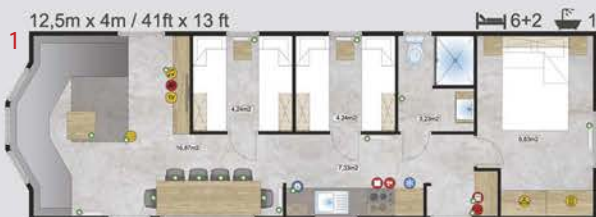

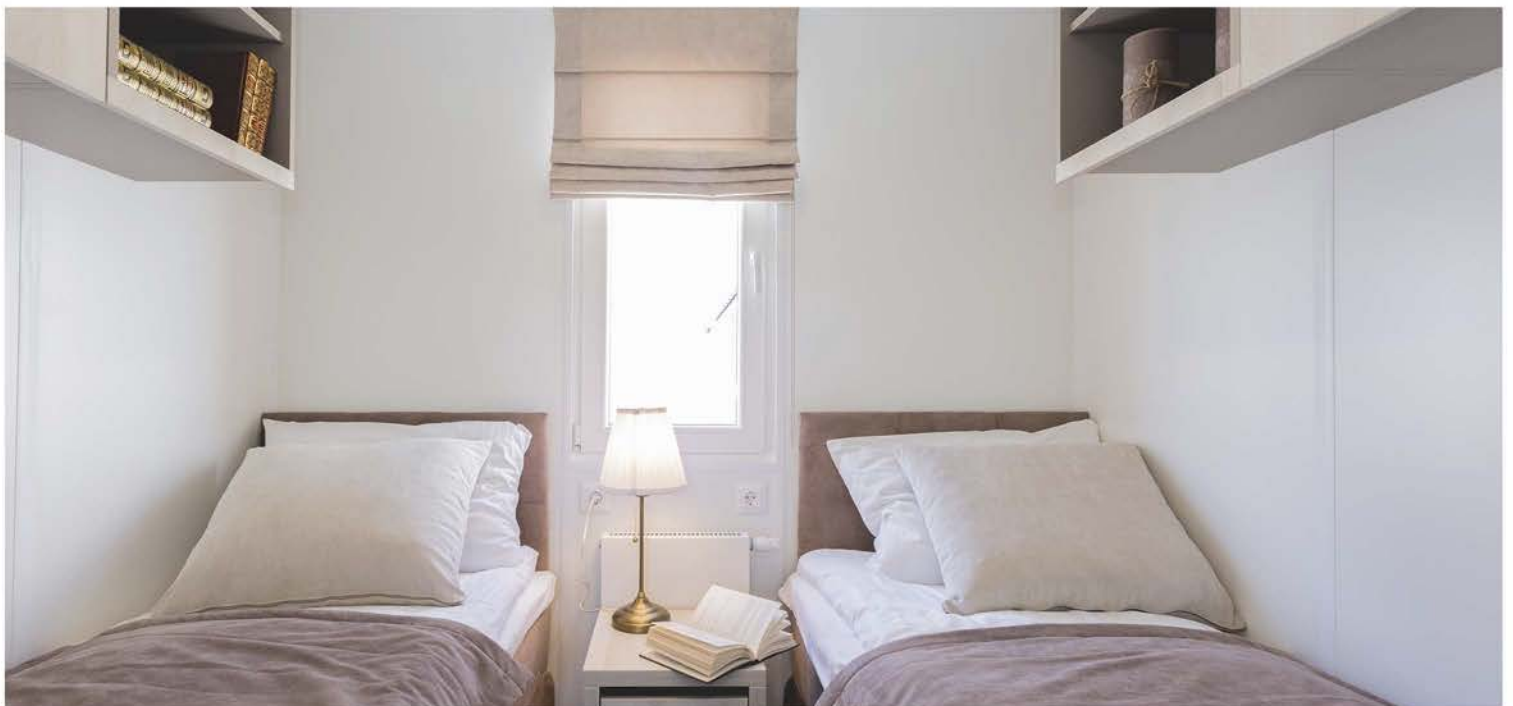

CAVALLINO

Designed in an interesting rustic style Cavallino home looks amazing when surrounded by the natural environment. Interesting colours and specific construction of the windows provide an optimal lighting of the interiors. The unique design will encourage the feeling of the family idyll. Cavallino is a mobile home created for people with passion.

LIDO

The styling of Lido home has been inspired by the unusual and sophisticated Italian style and brings to mind luxurious residential properties. It combines all of the following: cosy atmosphere, traditional elegance and modern design.

CAPRI

Innovation and modern look are the main features of Capri mobile home. Its unconventional shape and modern interior will appeal to everyone, who is looking for something more than just a traditional holiday house.

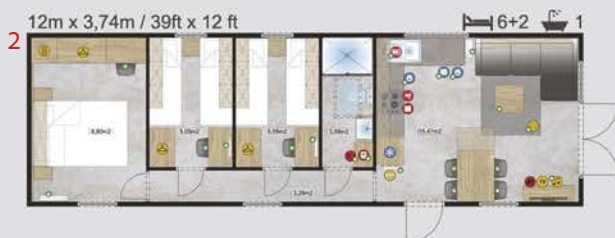

KORFU

This mobile home has been created for those ones, who appreciate tradition, simplicity and functionality. Thanks to a larger sleeping area Korfu is a perfect solution for those ones, who travel with whole families or with a group of friends.

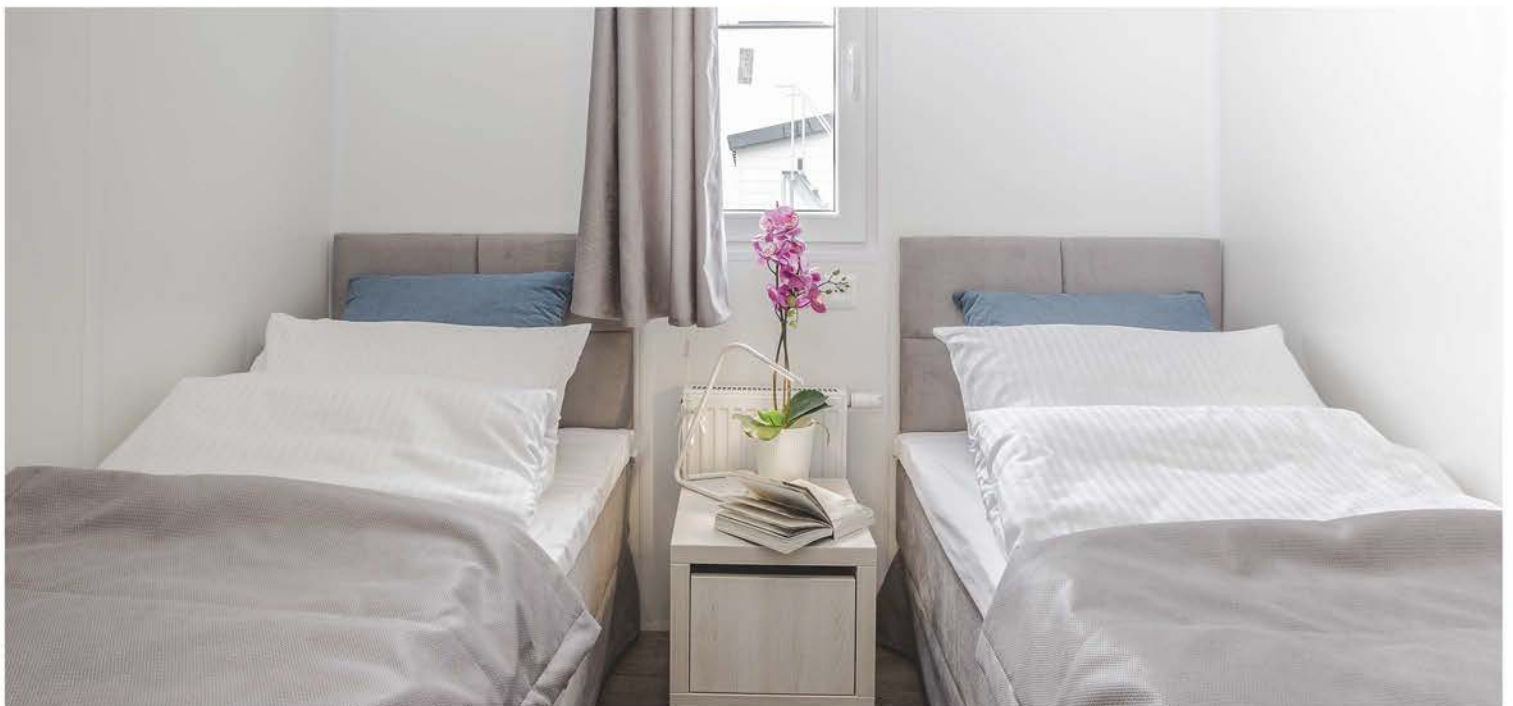

TEXEL

Its design is the answer to maximize the functionality and comfort of use. Open living room, with big windows and functional kitchen. Bedrooms separated by easy accessible bathroom and a walk in wardrobe. There is a lot of space to enjoy in the Texel.

BALLUM

Thanks to the Ballum model you will create an ideal place for rest. The terrace integrated with a house gives an opportunity of rest under a roof in nature's lap. Finished off internal elements, and a spacious cloak-room will impress every proprietor of this house.

SYLT

In the Sylt model it is possible to forget that you are in a mobile house. Elegant and finished off in every detail, and simultaneously modest and exceptionally delicate. A very vast living room will convince everyone who respects the spare time and values every minute of a pleasant rest.

JOLI / JOLI NATUR

This house is a bold step in the evolution of design in the world of mobile homes. The unique, yet distinctive model is the answer to the needs of a mobile homes users who are looking for a home that does not exceed 35 m². JOLI NATUR - It is a house that becomes a part of nature. All thanks to the exceptionally durable façade of Siberian larch wood.

SHERATON

It is a family home, spacious, functional, well-equipped. A distinctive feature is the separate bathrooms, ergonomically decorated kitchen and space in the living room. Large site on the front wall provides excellent contact with the environment. Home for the most demanding users.

Extremely modern and at the same time very functional house will satisfy the most demanding customers. The function of an open fireplace offers a climate of warmth and romance.

JERSEY

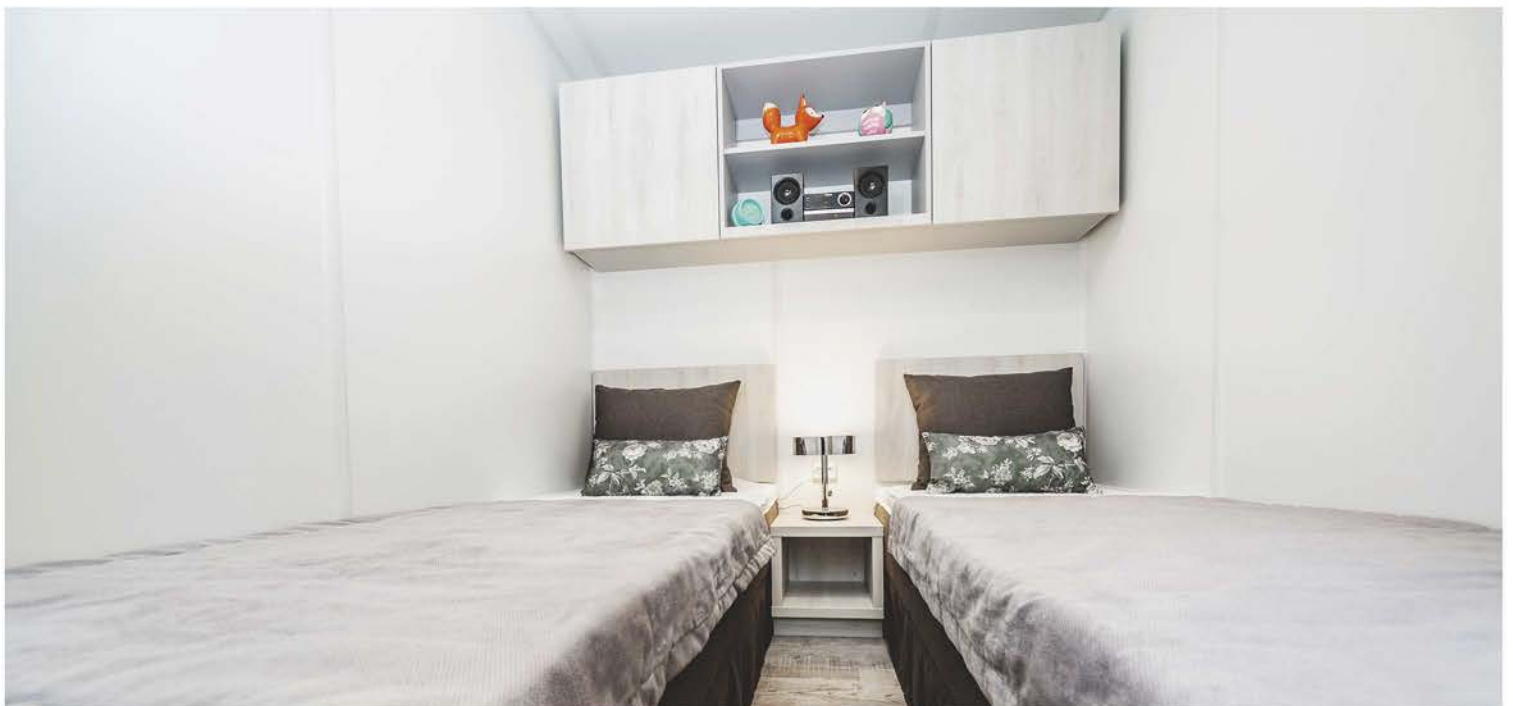

NORDIC STAR

The Nordic Star is an exceptionally beautiful living space with fabrics, fixtures and fittings to match. It is a classic design with fresh and stylish touches throughout.

LUXURY BUDGET

The Luxury Budget is a refined and elegant holiday home available in 5 different models designed to meet your needs and high standards.

PICOLLO/GRANDE LEONE ADRIATIC

A small holiday house, perfect if you have a limited space available for your house, but don't want to make a compromise. A larger Piccolo brother – combines functionality in a small space with very high durability and quality. The winning solution for small lots.

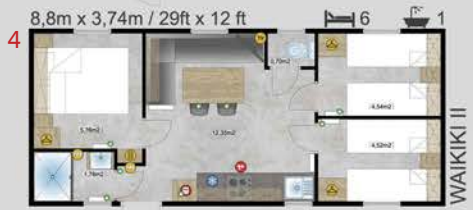

CAMPING SOLUTION

The clever design of our newest models offers real flexibility to choose a leisure home that meets your exact requirements, creating the perfect environment for relaxing holiday with your friends. The warm and welcoming style makes them the perfect choice for a cosy and comfortable escape.

TOURISTIC SOLUTION

A solution for resorts, hotels and guest houses serving a large number of school-age guests and students. Large number of beds in a small space, full sanitary facilities, kitchenette.

HOTEL SOLUTION

Professionally designed high standard rooms which at low cost can help quickly create accommodation facilities in a completely new area or can be adapted to serve in the existing facilities.

MOBILE OFFICE

Houses intended for offices or offices with sleeping facilities. Ideal for doctors, architects, lawyers and other professionals who provide services in different cities – they allow you to work and rest in comfortable conditions. Full offices will allow you to quickly install businesses or services in new locations.

SMALL POD

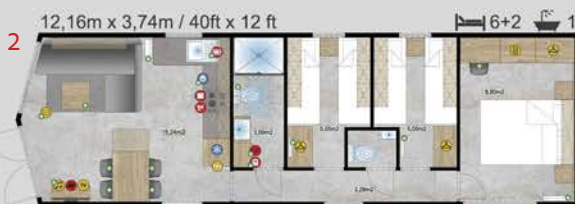

Despite the small size, the Small POD mobile home has all the functions and coziness of a normal home. The perfect choice when there is no place to put a house with larger sizes. It has a fully equipped bathroom, a spacious bedroom, as well as a living area with a kitchenette and its coziness, perfectly combined with quality materials and finishes as in a high-class apartment.

PAG

A novelty full of extravagance and designer courage. The remarkable shape of the house catches the eye and the functional layout of the rooms ensures a comfortable rest. Large glazing is a source of light in the rooms and gives the feeling of closeness to nature. The PAG model will satisfy all lovers of simple and practical solutions.

SANTORINI

Santorini is a project inspired by the original Greek style. It combines a cozy atmosphere, traditional elegance, and modern design. The Santorini model is the perfect choice for all lovers of classic and unconventional architectural designs. Enjoy the spectacular view that surrounds you.

French Style

Houses dedicated to the French market are characterized by simplicity, which, however, always is broken with the note of finesse. Elegance begins at the source and quality.

Customise your home to suit your needs!

Lark Leisure Homes

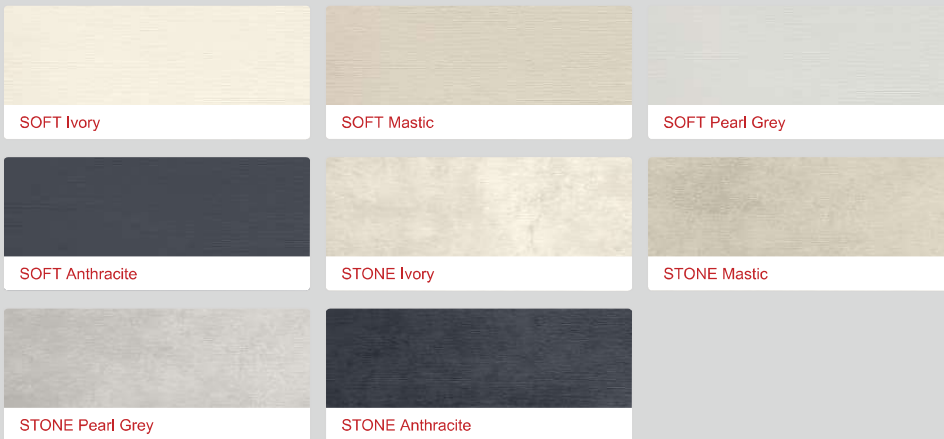

We care about your needs – please look into the widest range of choices on the market right below:

New! Fiberglass facade material

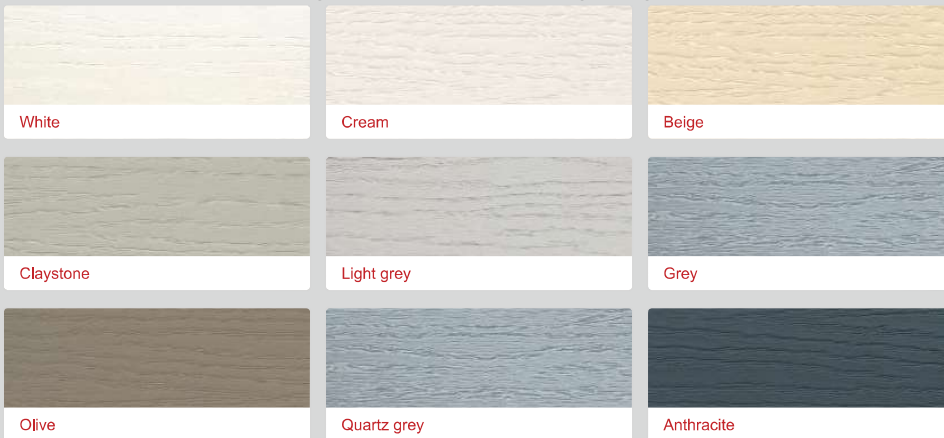

TREND collection

The collection is offered in four colours, which are available in two design versions: STONE - with natural stone image and SOFT - with a subtle, monochromatic shade. The new line follows the current trends in architecture, which are moving towards simple, large forms.

Classic Collection

This is the basic line in nine-colour range, both light and dark. Attractive looking wood texture and matt surface allow for creating incredibly aesthetic and long-lasting facade.

Wood Design Collection

Wood Design is a unique collection of facade cladding coming in natural wood colours to give its warm nature. It perfectly combines advantages of cladding boards with timeless beauty of natural wood.

Wood-based structure

Moisture resistant

Quick installation

Pests resistant

Guarantee

Durability, impact strength

Facade ventilation

No painting or maintenance required

Why choose LARK

- the advantages of our products.

1. A super-durable galvanized frame with a chassis of the durability far exceeding the competitor's products, able to withstand up to 12 tonnes of weight.
2. Ventilated wall and roof system - enabling the wall and roof construction to stay dry, and free from infestations.
3. A waterproof P5 board in the interior of the house (scratch-resistant, water-resistant, antibacterial, double-sided laminated, produced in just one place in Europe) Also the Agnes and Fibo Trespo wall panels are available in lodges as an option.
4. Large glazing areas and safety glass - unavailable in our competitors' house - the windows used are just the same as in regular buildings, much quieter, and much more efficient in the U value measures.
5. Our own furniture factory - matching all of the customer's needs - and the ability to design all possible changes.
6. Very large configuration options - even creation of houses from scratch - no other factory allows their customers for such an individualization.
7. The possibility of financing through the factoring - new to our offer, now we can help anyone to grow their business with LARK.
8. Very high quality - over 120 continuing quality checkpoints during the production process, highly skilled quality workers, two certificates by TUV Nord and NCC (National Caravan Council of UK) - we are the only factory in Europe to have gained those two.
9. The long manufacturer guarantees - due to the high quality of our products we can offer long warranty time.
10. The best water and heating systems from John Guest - used in airplanes, boats and even space shuttles.
11. Renowned suppliers of home appliances with the option of individualization of buildings - easy service and maintenance no quality compromised.
12. Up to 4 thicknesses of external wall thermal insulation offered - different U values for different climates.
13. Sound insulation inside the house and through window joinery - making LARK one of the quietest products in the market.
14. Heating and additional systems (alarms, air-conditioning, photovoltaic, etc.) - we are able to put almost every modern device used in home construction and make sure it will work properly.
15. Monolithic shower, no leaks, easy cleaning, functional layout. No flooding of bathrooms and floor construction, longer service life.

W a r r a n t y

Our warranty is the best in the market and provides total protection for LARK products for 12 calendar months from the date of purchase of your mobile home giving you a peace of mind and comfort of use.

You can also enjoy the extended warranty on your home's construction elements that are important for its longevity and durability. Due to the use of materials from leading manufacturers, we are also able to offer products with extended warranty periods as outlined below.

- Fully galvanized steel frame*

Warranty extended to 10 years (9 years over 12 months) for:

- PVC elevation
- Roof tiles
- Gutters and downpipes

Warranty extended to 15 years (14 years over 12 months) for:

- Franke kitchen sinks
- Forbo PVC flooring

Additionally we offer a lifetime warranty on Blum furniture fittings

* Warranty applies to zinc coating. It is also possible to extend the warranty period to 5 years provided that you allow an annual chassis review in year 3,4 and 5 of the home use

** These additional warranty products require regular servicing and proper maintenance according to the manufacturer's service manual

Safety

Your safety is Lark's priority! All used materials fulfill highest structural and safety standards.

Our houses are built in accordance with all the requirements of the European standard EN1647 which means that they are suitable for seasonal or holiday accommodation.

Also this year we are proud to present new models of our houses that meet all the requirements of the British standard BS3632 which means that it is more suitable for year round living!

Additionally Lark models are certified by the TÜV Rheinland.

LARK
MODULAR CONSTRUCTION SYSTEMS

God is in the details...

Being driven by the vast experience in the hotel business and the knowledge acquired throughout years of traveling around Europe we have realized that the future for the construction industry dwells in a modern way of thinking of building homes, which results in a modular approach.
